

A vision for our city starts with the budget. In our budget we lay the foundation of our goals and establish the frame work we will operate in to achieve them. We are dedicated to making our government more transparent and this document is just one of the tools we are using to achieve that goal.

Mayor Lloyd Winnecke

SCHOOL OF MEDICINE
INDIANA UNIVERSITY

Going Forward – Challenges

Long Term – Financial planning for 2017 and beyond

- Maintain bond ratings and improve financial performance
- Managing health insurance continual cost increases
- Property tax caps local government revenue limitations
- Court limitation on tax increment financing operating expenditures
- Preserve adequate reserve credit for funding of sewer separation project. Evansville must meet the challenge of separating our sewer lines to be compliant with EPA standards. The completion of this project will span 20 years.
